### Risk Factors and Disparities

- LGBTQIA+ youth are **120% more likely** to experience homelessness than non-LGBTQIA+ peers. **40%** of youth experiencing homelessness self-identify as LGBTQIA+.
- Youth with less than a GED or high school diploma are **346% more likely** to experience homelessness than peers who’ve completed high school.
- Black and Hispanic, non-White youth face an **83% higher** and **33% higher** risk of reporting homelessness, respectively.
- System-involved youth are at **higher risk** of experiencing homelessness; juvenile records can serve as barriers to housing and can disrupt education, employment, and other factors that promote self-sufficiency.
